

FINE BONE CHINA, EXCLUSIVELY DESIGNED BY ELIE TAHARI

Elie Tahari, partnering with Lifetime Brands, Inc. is proud to debut his 2015 tabletop collection. Featuring beautifully elegant fine bone china inspired by Mr. Tahari's love of New York City and the Hamptons, the collection consists of seven dinnerware and three glassware patterns. Available for Fall, this striking and sophisticated tabletop collection perfectly translates the essence of the Elie Tahari brand for the home.

BANK STREET

Offers a tailored, geometric grid pattern that reflects the architecture found in New York City's West Village where Elie Tahari opened his first shop in 1975. Metallic finishes with platinum inspired by the gunmetal trims in Tahari's collections give this porcelain pattern a timeless, yet modern look.

OCEAN ROAD

Brings the calming ambiance of the beach in Bridgehampton to the table with its handcrafted, artisanal design. Featured on a contemporary round coupe shape, the subtle blue place setting combines simplicity with a modern twist.

JANE STREET

Offers elegance and sophistication inspired by New York City's West Village. It features airy wisps of twisting, smoky bands that flow gracefully across the round, coupe shape. Choose from Elie's signature Cobalt Blue or Smokey Gray for a contemporary look on bone china that beautifully combines urban fashion and modern function.

JANE STREET – SMOKEY GRAY

JANE STREET – COBALT BLUE

GARDINERS LANE

Adds a breath of fresh air to the table with its soft pastel colors and deconstructed floral design. Inspired by garden-side dinner parties in East Hampton, this pattern creates a stunning backdrop for any meal.

MILLSTONE

A pattern inspired by Millstone Road in Bridgehampton, features a cobalt blue ombré design drawn from Tahari's Spring 2015 "shipwrecked-themed" Collection. It is available in both a soft square and a round coupe shape.

NAVY BEACH

Is inspired by the cloudy blue skies above Montauk and the subtle ombré looks found in the Elie Tahari Spring 2015 Collection. With muted, moody blue tones, this pattern reflects the many variations of the ocean.

PRINCE STREET

Is inspired by Elie Tahari's love of SoHo where he has his flagship store. The textured geometric design references the mesh fabric used in the SoHo Coat from Elie Tahri's 40th Anniversary Collection. This stunning bone china place setting is available in both a soft square shape and a round coupe shape.

GLASSWARE, EXCLUSIVELY DESIGNED BY ELIE TAHARI
